

CLINICAL AESTHETICS ADDITIONAL HANDS-ON TRAINING: HA DERMAL FILLERS

LEX[®]
RX

Designed for the novice injector: a clinician who has completed an introductory HA Dermal Fillers training.

This 3 hour hands-on experience allows you to perfect your skills under the direct supervision of LexRx NP injectors. You will manage your clients' visits from start to finish and participate in additional hands-on training and observation in a small group setting. This additional training and mentorship opportunity allows you to gain more confidence as an injector and perfect your skill set. You will inject and learn at a dedicated "treatment area" for the advanced hands-on experience, separate from the 1st time learners.

This course includes:

- 30 minute planning session
- 2 hours injection and observation time,
- 30 minute outcomes discussion

Who is eligible to participate?:

- APRNs
- RNs
- BSN students who have clinical experience
- PAs
- MDs
- DOs
- DDSs
- DMDs

*Prerequisite: Completion of a HA Dermal Fillers Training Course

We highly recommend that students invite their own models: 3 models per 3 hour session. All models should send an email to models@lexrx.co to sign up and be assigned a time slot.
