

BOSTON COLLEGE
CONNELL SCHOOL OF NURSING
CONTINUING EDUCATION PROGRAM

2021 NANDA-I/BC Conference Goals

- Discuss NANDA-I's strategic direction for 2021-2023 and the implications for NANDA-I Task Forces and Partnerships.
- Examine the structures for communicating nursing knowledge, humanistic health, and nursing language within existing information systems and the Electronic Health Record (EHR).
- Describe opportunities and barriers within current systems for data collection, storage, retrieval and use in health care settings.
- Explore the use of large data sets that incorporate nursing language and platforms to foster knowledge development, expand international research, and inform practice, education and policy.
- Promote opportunities for international collaboration and research using NANDA-I nursing diagnoses, globally.
- Provide the latest science validating the frameworks for nursing assessment and nursing diagnosis across cultures and settings.
