Extramural Funding

Award Period: 11/1/2022-04/30/2024 *PI/Candidate*, **Research Supplement to Promote Diversity in Health-Related Research**, National Institute on Minority Health and Health Disparities (NIMHD) (\$250,000)

Targeting Health Disparities through Housing Redevelopment: A Natural Experiment of Housing Quality, Stability, and Economic Integration. (NIH/NIMHD 1R01MD015729-01A1). Rebekah Coley & Samantha Teixeira, parent award Principal Investigators

Specific Aims: Aim 1: Trace neighborhood demographic, political, and social shifts from 1980-present to ground an examination of variations in environmental inequality, perceptions of inequality, and resource utilization for Black South Boston residents. Aim 2: Expand the qualitative substudy sample size and add a focus on how Black residents define and construct their subjective neighborhood boundaries (physical and symbolic), experiences, and sociohistorical understandings of their neighborhood, including variation across gender, age, and ethnicity. Aim 3: Use mixed methods research to examine stress exposure, stress experience/appraisal, coping resources, and links to mental and physical health outcomes among Black residents, including variation across gender, age, and ethnicity.

Award Period: 06/2023-05/2026

Co-PI, Innovative Technology Experiences for Students and Teachers (ITEST), National Science Foundation (\$1,299,256)

Empowering Youth in STEM and Technological Careers Through AI-Enhanced Sustainable and Community-Focused Urban Gardening. Michael Barnett, Helen Zhang, & Avneet Hira, Co-Principal Investigators

RQ1: How does participating in the restorative garden project (and peer mentoring) impact youth's desire and self-efficacy to pursue and stay in STEM career fields?

RQ2: How does participating in the restorative garden project impact youth's understanding of STEM (coding and AI) concepts and systems thinking skills?

RQ3: How does participating in this project impact youth's place identity and STEM identity? How does participating in youth participatory action research around restorative gardening contribute to youth's ideas of environmental responsibility, food sovereignty and global citizenship?

Award Period: 04/2024-04/2027

Co-PI, Brady Education Foundation (\$368,032)

Supporting Marginalized Youths' Educational Success: A Mixed-Methods Natural Experiment.
