BC Software/Copyright Disclosure

Please include with this submission (software):

- **A copy of any accompanying material, such as a user guide**
- **Any published articles, poster presentations or other materials you have available that describe the functionality of the software**

PLEASE APPLY THE FOLLOWING COPYRIGHT NOTICE TO ALL EXISTING COPIES OF THE SOFTWARE OR INVENTIVE WORK:

© [YEAR(s) OF DEVELOPMENT/PUBLICATION] the Trustees of Boston College. All rights reserved.

The above copyright notice should be placed at the bottom and top of source code, and regularly throughout; on the title screen or title page; labels on diskettes, CDs, or hard copy materials; documentation, user's manuals, or printed materials.

1. Title of Software/Inventive Work:

--

2. Please list all those who contributed to the creation of the inventive work, attaching additional tables as required. An author of a copyrightable work is anyone who has written any of the text or code, even if only a very small contribution, or provided any text, graphics, photos, video, sound effects, voice recording or other intangible or tangible item ("Material") that has been incorporated into the software.

Name	Institution	Position	Department	Phone/E-Mail	Is Federal Employee?(Y/N)	Contribution Percentage (total 100%)

3. Indicate all sources of funding for the invention, including internal or funding received from government agencies, nonprofit organizations or commercial entities:

Sponsor(s)	Contract/Grant No(s).	Period of Funding	Principal Investigator

4. Use of Resources Provided by External Sources. AUTHORS MUST DISCLOSE ALL OF THE THIRD PARTY CODE AND MATERIALS THAT HAVE BEEN EMBEDDED IN THE SOFTWARE. These codes and Materials are restricted by licensing terms that must be reviewed and complied with:

In generating the invention, did you use any confidential information, materials, equipment, software, facilities, or other items obtained from entities other than Boston College or individuals other than your co-inventors?	☒	Check as May Apply	
	☐	Yes	
	☐	No	
(Software) Does the software include any code: protected by patent, open source license, downloaded from the web, brought to BC from a company or another university, developed by a collaborator at another institution, obtained under a license, or for which authorship or ownership cannot be determined?	☒	Check as May Apply	
	☐	Yes	
	☐	No	
If so, please give the name(s) of these sources and describe the nature of the item(s): Is there an agreement in place covering the provision of the item(s) to you? If so, please describe, or attach.			

5. Keywords and Related Publications: Please list keywords and pertinent publications (by you or by other researchers) which are related to the invention or to this area of research, to support market analysis.

--

6. Are you aware of any companies which you believe are conducting similar research, or which could take an interest in licensing this invention? If so, please list them and note whether you have an existing relationship.

--

7. Is this a derivative work? (Under the Copyright Act, a "derivative work" is a work based upon one or more preexisting works, such as a translation, musical arrangement, dramatization, fictionalization, motion picture version, sound recording, art reproduction, abridgment, condensation, or any other form in which a work may be recast, transformed, or adapted. A work consisting of editorial revisions, annotations, elaborations, or other modifications which, as a whole, represent an original work of authorship, is a "derivative work.") ☐ Yes ☐ No

If yes, name the work from which it was derived.

--

7. Technical Description. Please include a detailed technical description of the software or inventive work. **A draft manuscript is ideal.** Is the invention an improvement to, or a new use of, an existing product or process, and if so, what are its novel features? What are its advantages?

8. What uses do you foresee for this invention? (please feel free to speculate, and be creative!) Are there specific problems, or needs, addressed by the invention? If so, what is currently being used to address these, and how is the invention advantageous over these existing solutions?

9. Do you intend to publicly release the software under an open source license? ☐ Yes ☐ No

If yes, please explain reasoning and form of license that you're considering using.

10. Author's signatures:

By signing, you agree that:

All information provided herein is true and complete to the best of my knowledge. I will do everything reasonably requested by the Boston College Office of Technology Transfer and Licensing to assist in the evaluation, protection and possible commercialization of this invention. If I am an employee or student of, or fellow at, Boston College, I hereby assign all right, title and interest to the invention described herein to Boston College.
